County Sunday School Convention.

Two Orleans County Sunday School Association assembled at Craftsbury St. 27 and 28, for its 45th convention. The rain in the morning of the 27th undoubtedly affected the attendance, but nineteen Sunday schools were represented. The number of pastors present was less than the number at the two preceding conventions; the attendance of superintendents and officers is increasing; the number of teachers present was the same as last year. The entire convention was characterized by a spirit of thoughtfulness, a longing to know how to meet the varied phases of Sunday school work to accomplish the best results and make the Sunday school a power in the development of Christian character. Rev. E. M. Fuller, general secretary of the Vermont Sunday School Association, was especially helpful in his practical suggestions. The following resolutions were adopted by the convention:

Resolved: That we are gratified by the growth of the Sunday school work in our state through the agency of the State Sunday School Association and express our full confidence in the judgment of the executive committee and of the general secretary, Rev. E. M. Fuller, as manifested in the conduct of this work; and further, Resolved: That as a County Sunday School Association we cooperate with the State Association through our executive committee in assuming the details of the Sunday school work in the county, as they desire, and in dating our county, district and township conventions, as far as possible, so as to accommodate the state workers.

Resolved: That we recommend that field work be done in our county by the officers and department superintendents of the County Association under the direction of the executive committee and that the expenses of such field work be met from our treasury as the executive committee deem wise.

Resolved: That we appreciate the district and township associations as being of great value and most heartily recommend to all such associations that they endeavor to carry out the provisions of their constitutions.

Resolved: That we hail with delight the action of the executive committee of our International Sunday School Association at their last meeting in establishing the three departments of work known as the Temperance, the Mission, and the Adult Class Departments, for the purpose of giving the Sunday school work in developing these lines, and recommending the special recognition of these lines of work in our local Sunday schools.

Resolved: That we approve the use of the Fourth of July by our Sunday schools for holding picnics and gatherings that are more worthy of our national holiday than its usual observance, and that we would recommend such observance to our district and county associations and local schools.

Resolved: That we regret the running of Sunday pleasure excursion trains in Vermont and earnestly desire that they should be prohibited by an enactment of the state legislature.

Resolved: That we, as representatives of the Sunday schools of Orleans County, favor the state prohibition of the saloon and denounce the stand of the dominant political party in favor of the continuance of our license law.

Resolved: That we wish to express our delight and more than satisfaction with the cordial welcome we have received from the people of Craftsbury and the hospitality we have enjoyed, and that we shall go to our homes with gladness in our hearts and a prayer for the abundant blessing of God upon our hosts and hostesses.

The following officers were elected for the ensuing year: President, Prof. L. E. Tupper; vice president, Rev. R. J. Christie; secretary, Mrs. E. S. Kelley; treasurer, J. R. Alken; state director for county, George H. Flint; superintendent, teacher training, Rev. H. J. Barton; primary superintendent, Miss Harriet Gross; home department superintendent, Rev. W. B. Davenport; executive committee, the county officers. Speaking of the importance of the work of the Sunday school, Rev. R. J. Barton stated that the Sunday school was the biggest thing in the United States except the United States itself. Rev. E. M. Fuller recalled the statement and enlarged it, saying that the Sunday school in the United States was larger than

the United States; for the American Sunday School Association had sent a worker into Mexico, one to the West Indies and one to Japan, to organize the Sunday schools of those countries for effective work, and there were other fields waiting for workers to be sent.
